Project Name : Signs with Smart Connectivity for Better Road Safety

The image shows two screenshots of the OpenWeather website. The top screenshot is the main page, displaying the OpenWeather logo, a search bar, and weather information for London, GB, including a temperature of 11°C and a map of the UK. The bottom screenshot shows a user profile page with a sidebar menu containing 'User settings', 'Privacy centre', and 'Invoice info'. The main content area of the profile page includes a heading 'Please indicate what news from our company you would like to receive by mail:', a checked checkbox for 'System news (API usage alert, system update, temporary system shutdown, etc)', and two unselected checkboxes for 'Product news (change to price, new product features, etc)' and 'Corporate news (our life, the launch of a new service, etc)'. A 'Save settings' button is located at the bottom of the profile page.

Kanyakumari, IN overcast clouds temperature from 26 to 26 'C. wind 2.76
mts. clouds 99 1009 hpa
Geo coords [80793, 77.5499]

Search engine is very flexible. How it works:

- To make it more precise put the city's name, comma, 2-letter country code (ISO3166). You will get all proper cities in chosen country. The order is important - the first is city name then comma then country. Example - London, GB or New York, US.
